Barron s Educational Series, United States, 2016. Paperback. Book Condition: New. 254 x 218 mm. Language: English . Brand New Book. Here s a hands-on guide to perspective that s for anyone who wants to draw or paint--in any genre or medium. It s partly about learning how to draw a set of straight lines that meet at a point, but it s not filled with lots of dull, dry theory (although it does explain how it all works). Instead, it gives you tons of fun, practical exercises, and encourages you to play with them, so that learning how to draw in perspective is effortless and easy. Put your observational skills to the test with: Image Quizzes: take a pen and draw in all the vanishing points onto the book itselfPerspective Chambers: draw objects onto an existing scene, keeping it all in the right perspective--sort of like 3D doodlingUnique exercises with more than 100 vanishing points to figure out By the time you ve completed this book, you will have a keen understanding of how perspective really works. Plus, you ll learn how to look at the world around you, see what s really there, and spot where those invisible straight lines may be located. It will become like a sixth sense to you--one that will add depth and meaning to all of your artistic pursuits.
