Dragon Eye - The Dragon Eye is a small, unmanned aerial vehicle with video surveillance capabilities used by the marines. To address the concerns over a chemical and biological threat to troops in Iraq, the Quick Reaction Fund funded the integration of a small chemical detection and biological collection device on the Dragon Eye. The low-flying Dragon Eye can tell troops in real time where and when it is collecting samples, and in cases where a plume is detected, it can determine the direction the plume is moving. According to program officials, Quick Reaction funding allowed the chemical and biological detection capability to be developed 2 years ahead of schedule. The technology...
