## FIFTY FOODS THAT CHANGED THE COURSE OF HISTORY (HARDBACK)

FIREFLY BOOKS, United States, 2014. Hardback. Book Condition: New. 228 x 170 mm. Language: English . Brand New Book. A beautifully presented guide to the foods that have had the greatest impact on human civilization. Though many of the foods in this book are taken for granted and one (the mammoth) is no longer consumed, these foods have kept humans alive for millennia and theirs is a fascinating story. Like the other titles in this highly-regarded series, this book organizes the fifty foods into short illustrated chapters of fascinating narratives: the who, where, when, why and how of each food s introduction and its impact on civilization in one or more cultural, social, commercial, political or military spheres. These stories span human history, from our hunter-gatherer ancestors to the transatlantic slave trade, from the introduction of frozen foods, prohibition and the rise of the Mafia, to the powdered milk scandal in China. Another example is golden rice, the first genetically modified food developed for the good of humanity rather than solely for profit. Most of the foods are familiar and their importance obvious, such as bread, sugar, wine, potato, beef and rice. Others are far less obvious. The fifty foods include: Mammoth - the prehistoric giant hunted to extinction Spartan black broth - the stew that sustained an army Paella - the Moorish origin of jambalaya Hardtack - kept Crusaders and conquerors alive Cassoulet - a French town under siege makes do and creates a controversial masterpiece Sugar - European taste for sugar and the transatlantic slave trade that ensued Hamburger - the democratization of the world Bananas - a murky US-EU trade war. Fifty Foods That Changed the Course of History is an informative and entertaining look at how what we eat has made us who we are.
